## Misyon-Visyon

### **Our mission:**

In order to continuously develop and improve with the aim of increasing the quality of life of our country and the people of the region;

- To provide preventive and curative health services with the highest quality that medicine has reached,
- To provide health services to all communities in need, under favourable economic conditions,
- To support the development of new knowledge and practices in all matters related to health,
- To support the teams consisting of physicians-health professionals-support services, whose human love is constantly increasing, who are devoted to their profession and who are highly qualified.

### **Our vision:**

To be among the leading health groups not only in the region but also in Turkey, with Turkey's pioneering practices that provide quality health services and adopt a people-oriented approach. In

## Tarih

As Büyük Anadolu Healthcare Group, we experience the happiness and pride of 26 years of experience in the healthcare industry. Our first service building, which was opened in Samsun on this road we started in 1997, is the first private hospital of Samsun in terms of private health services.

Keeping the satisfaction of our guests at the highest level in our hospitals for 26 years, solving all the health problems of those who apply to our hospital as soon as possible and reliably, meeting all relevant legal requirements, being the most respected and reliable hospital in our region, Our indispensable goals are to provide health services with our talented team, to closely follow the developments in science and technology, to provide a participatory management by valuing employees, to use resources in the most efficient and effective way, to respect the environment by making environmental impact assessments and to make continuous improvements.

By closely following the developing health services in our country and the increasing technological advances around the world, we continue to make breakthroughs in order to ensure pioneering use in our region and in our country, and we strive to provide full health services to all our clients 24/7.

## Başkanın Mesajı

"As Büyük Anadolu Hospitals, we are proud to contribute to the development of our country in the health sector with our ever-improving understanding of better service provision, with constantly updated technological equipment, by following the world-wide developments and especially growing with your support.

To become a brand in the health sector with our two service buildings in Samsun and Kocaeli Darıca, with a total indoor area of 45 thousand m2, our patient portfolio from 35 different countries thanks to easy domestic and international access, our experienced and academic staff of doctors and more than 700 colleagues. We work with the utmost effort.

While we share the happiness of being able to stay in the same line without losing our vision or mission on this path that we started in 1997, we continue the structuring in our new service buildings without slowing down aiming to spread our services to wider population.

With our slogan of trust in health, we will continue to be the address of both health and trust with family warmth as well as institutional services to our esteemed patients and patient relatives."

Op.Dr.Yakup Yonten

Chairman of the Board

addition, it is to be a health institution with competitive power and qualified equipment that provides medical diagnosis and treatment services at national standards and renews itself in accordance with the changing and developing conditions in the provision of services.

**Our values:**

- **EXCELLENCE:** Continuous improvement studies with quality awareness
- **INNOVATION:** To renew ourselves and be open to innovations by following all sectoral developments closely.
- **DEVELOPMENT:** To provide services based on continuous improvement and measurements, both in terms of quality and quantity.
- **SOLUTION ORIENTED:** Being a part of the solution, not the problem, as a team
- **HONESTY:** Adherence to medical ethical rules, transparency, sense of responsibility, and sensitivity are our sine qua non
- **OPEN COMMUNICATION:** Being available 24/7-365
